ABOUT US

Besol is a brand new company focusing on eco-friendly solutions by using solar energy.

Our solar dehydrator is an eco-friendly way of drying your food.

Keep your favorite vegetables, fruit and meat healthy and avoid waste.

The solar dehydrator keeps it all under control for you.

Eco-friendly

Dryfoo is made out of recyclable materials. It is easy to dismantle the product so recycling becomes fun.

Low maintenance

Due to the smart use of sensors Dryfoo is able to work automatically while drying the food for you.

Energy efficient

The energy of the Sun is the only thing that Dryfoo needs to dehydrate your food. Once the food is dried, it is preservable without energy consumption.

Stay healthy

Drying food improves the quality of the food. The process reduces the amount of fat and increases the quantity of vitamins.
